Come learn basic insight into pendulums and how to make them work for you. The pendulum is one of the easiest ways to tuning into the intuitive powers we all possess but may find hard to trust. The pendulum is so simple, yet so versatile. Come to this workshop and open a new world of discovery!

This workshop includes

- Choosing a pendulum that's right for you
- Cleansing and blessing your pendulum
- How to effectively use pendulums
- How to use dowsing charts to locate objects and for additional clarity on a general energy or specific intentions
- How to combine the pendulum with your intuitive abilities
- Why pendulums don't always work and how to work around problems

In this class, you will learn how to receive clear answers from a pendulum. You will practice receiving guidance from your Higher Self with directed pendulum questions.

No previous experience working with a pendulum is required, just an open heart and mind! A guided meditation will be included and a good portion of the workshop will be spent using pendulums to do "readings" with each other.

A pendulum is required for this class.
